

## Certificate of Completion

HSSP Summer 2023

This is to certify that William Nagi attended HSSP Summer 2023 and completed the following classes:

Course	Teacher[s]
Nuclear Reactors: Science and Operation	Li Xuan Tan

HSSP courses are taught by volunteers, primarily MIT students. The content and difficulty of the subjects varies significantly, from non-academic to college-level. Our program is not accredited to issue credit for any class, however, we leave it to school administrators to decide whether ESP courses can be counted as substitutes for school classes. You may view the teachers' course descriptions on the attached pages. If you would like to talk to an administrator or teacher about the content of a particular course, please email us at [esp@mit.edu](mailto:esp@mit.edu).

HSSP Summer 2023 Directors  
MIT ESP

**HSSP Summer 2023 courses taken by William Nagi**

**S15628s1: Nuclear Reactors: Science and Operation - Li Xuan Tan**

Have you ever wondered what goes on inside a nuclear reactor, or what it's like to operate one?

We'll learn the basics of how a nuclear reactor operates, how we harness the many forms of energy, and how we ensure safety.

Depending on availability, the class may take a tour of the MIT Nuclear Reactor Lab!

*Open to students in grades 7 through 13*

*Maximum size: 100*

*Meeting times: Sun 3:00pm-4:00pm*
